

## TEACHING SCIENCE: THERE'S AN APP FOR THAT!

### "Snowflake"

- This app is \$2.99
- "The Tale of a Snowflake" tells the story of a little snowflake and its travels.
- Students will follow the snowflake and learn about the water cycle.
- This app reads like a book.
- Very interactive. The students can play on each page so they have a more hands on experience.
  - Very fun!
- This is good for an introduction to younger children because it goes over the basics.

### easyLearn Structure of Earth iPad app

**This iPad app is a great way to learn about our planet from it's core to it's atmospheric layers!**

**Beginning with the learn menu, the user can choose from 42 Earth related subjects.**

**The practice section includes naming, questions, matching, trivia, sorting, puzzles, and an assorted section that combines all of the other practice types.**

**The quiz section is broken into different types of questions: naming, questions, matching, trivia, and assorted questions**

**This app is a great way to introduce or reinforce knowledge about Earth. The language is technical, but the pictures are amazing. Younger children will benefit from it with guidance and older**
